

New Generation of Facade Clock - with LED Illumination

The well known and well established A 624 series of facade clocks have been redesigned and are now available with up-to-date LED illumination for markers and hands.

Available in diameters of 150 to 500 cm.

The advantages are significant:

- Long life: the expected operating time of LEDs is more than 50'000 hours, respectively, more than 10 years (12 hours operating time per day).

- Lower price: with the new illumination, the prices of the A 624 series facade clocks can be essentially reduced. The new prices can be lowered as much as 25 to 30%.
- Lower power consumption
